

drop your internship

An informal summer program for those having second thoughts about their internship and who want to work on their own projects and/or company instead.

WHAT YOU GET

\$10,000+

We'll give you \$10,000 (or match your internship salary) via an investment on an uncapped note to drop your internship.

Total freedom

This program is mostly DIY. You'll have the freedom to work on your own projects on your own schedule.

Founder network

Those accepted will be invited to a weekend in SF to meet founders of billion+ dollar companies.

Small cohort

<10 people total. Hand-picked, so you'll actually get to know everyone.

Tell us more about you [here](#) (should take <4 minutes).
