

Goals and Purpose of this Student Portfolio

The student portfolio is a multipurpose tool. Its primary purpose is to get students thinking about their growth as learners, about the content they are studying, how they learn, and what they can do to become better learners. In addition to being a powerful tool for learning, it is a primary resource for educators AND parents to monitor their child's growth throughout the year.

The goal of this student portfolio is for students to set goals that are important to them and to monitor their individual learning growth with student and teacher selected work samples and reflections.

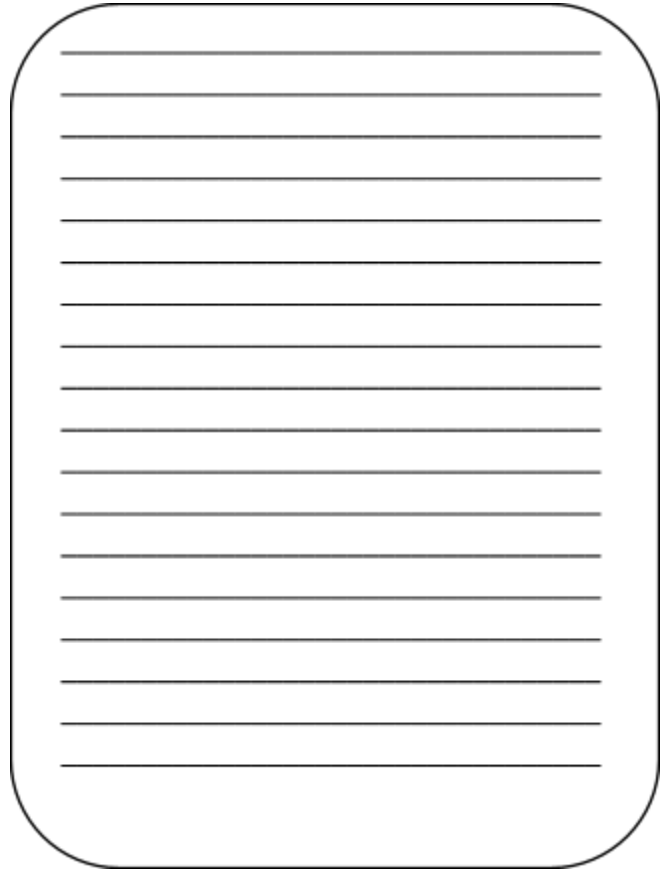

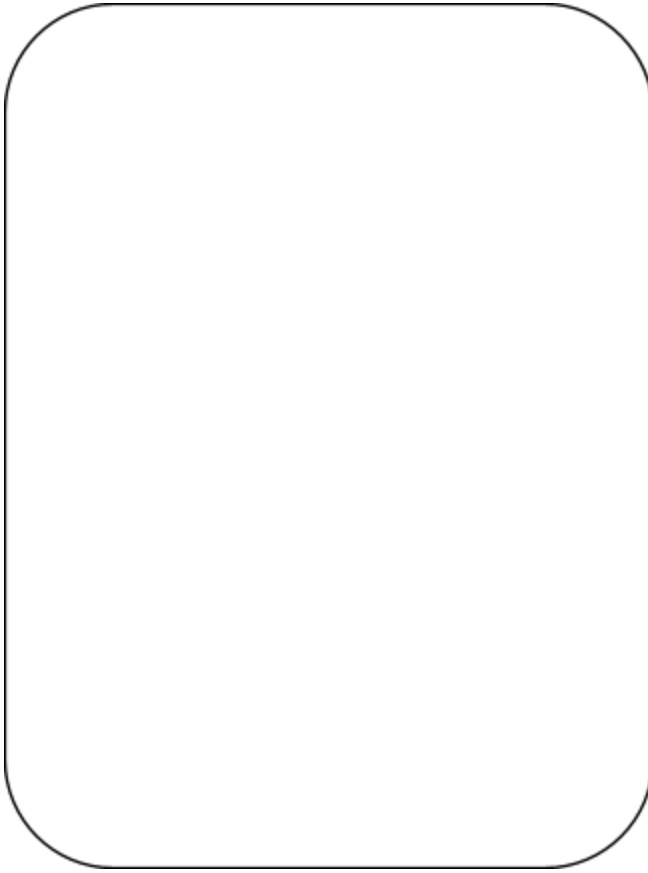

Parents, your role is integral to the learning process. Each week your child will bring home samples of work in a blue folder. I ask that you and your child review their progress and return the signed work promptly to school the following Monday. You will know that it is a "student portfolio intended sample" because it will state "Please sign and return."

I thank you in advance for the support and effort your role will take as we work together to create a love for learning!

Mrs. Stennett

I will have achieved my goal when:

Date: _____

The sample of work I have chosen is:

I have chosen this sample because:

It shows that I can:

Always remember you have within you, the strength, the patience, and the passion to reach for the stars to change the world.

~Harriett Tubman
