

- ◆ digital version of printed counterparts with reading supports — audio, highlighting, dictionary, and assessments
- ◆ leading publishers (We do not have them all, but we can purchase more if we like the resource.)
- ◆ include a large amount nonfiction (approximately 70%)
- ◆ does not replace AR, differs from AR

APP vs. WEB

The App differentiates this from other types of online reading. Students can download 20 books at a time to the iPad for offline reading in the app.

- ◆ Students should use the browser as much as possible and only use the App when they need to read offline.
- ◆ The App will not do My Interests, Lexile Assessments, Quizzes, etc.
- ◆ The App is case sensitive.
- ◆ When a user downloads a book to an iPad, that book will remain in the App no matter who is logged in to the App. The App does not require re-authentication.
- ◆ We will just do a web clip for the elementary iPads that aren't going home and just add the App to the ones that are going home next year.

Password

First Login:

1. Select School
2. Username: first initial, last name (sslaton)
3. Password: myON

The screenshot shows a web browser window with the URL `www.myon.com/admin/users/account.html`. The page title is "myON® - Account". The user is identified as Tiffany Barrett, a Teacher at Johnson Elementary, Scottsburg, IN. The page contains several sections: "User Information" with fields for Name (First name: Tiffany, Last name: Barrett), Contact Information (Email, Phone, Teacher ID: BARRETTTIFFANY), and Login Information (Username: tbarrett, Password field, Avatar image). There are "Back to Dashboard" and "Save" buttons at the top and bottom of the form. A red arrow points to the "account" menu item in the top navigation bar, and another red arrow points to the password field in the login information section.

Change your password.

How do students login?

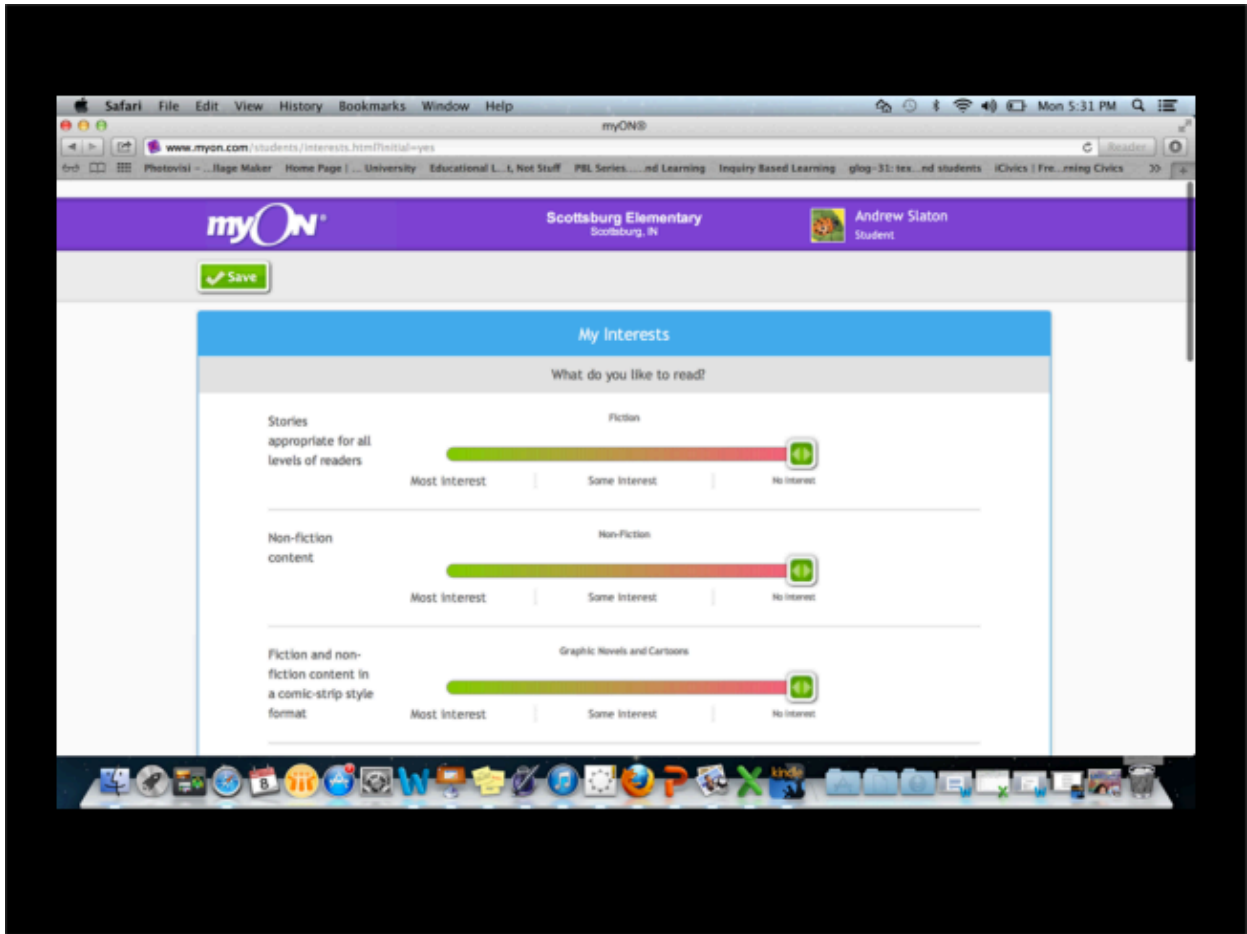

firstmlast
(lunch code)

1. The first time of access a student will need to go through Safari. The app will not generate the interest inventory or the lexile assessment.
2. When a student logs in for the first time, he or she will be prompted to complete an interest inventory and to take a lexile quiz. These two things will determine a student's recommended list.
3. Periodically, a student will retake the lexile assessment. We should promote this as a way to get a new recommended list.
