

GAME – *Betting Favorites*

Time to bet on your classmates' favorites! Each student (or team) starts off with \$100. As a class, come up with different categories. Try to come up with at least six. Then, pick one category. One student will come up to the board and write three items from that category. Then, each student (or team) will bet fake money on what from the list is their favorite. Students win \$20 for each correct guess and lose \$5 for each incorrect guess.

Example:

Category: Favorite ice cream flavor from Lizzy's

Student: Marie

Mint chocolate Strawberry Banana

Team 1: For \$20, I think Marie's favorite ice cream flavor is banana.

Answer: You're right!
