## General info:

- The government in my country sucks ass, and due to sanctions PayPal doesn't work here directly at this point in time
- Payment method 1: the only method that works for US citizens, I ask one of my European friends who has a PayPal account to be a middleman you PayPal the money to and they send it to me through Koronapay
- Payment method 2: doesn't work for US citizens and maybe other countries but works in the EU for sure - koronapay, it requires installing an app + verifying ID, but it's possible to use.
- Payment method 3: doesn't work for US citizens, but there's a patreon analog site called boosty (you basically log into it and then use paypal, you can either use the donate button or

I can make a custom commission post that you can purchase)

**- you are not allowed to use the commissioned piece or any of my art in general in any sort of AI image generator, I explicitly prohibit it**

- my e-mail is [nikolavne13@gmail.com](mailto:nikolavne13@gmail.com), but I don't check it very often, other methods of messaging are preferred

- Instagram hides message requests sometimes :(

- the fastest way to get a reply from me is to message me on discord (drakonishe#6173) or twitter (@Drak0nishe)

- Don't be afraid to ask questions before commissioning

- You're encouraged to use this question list to compile a thorough order description, the more detail you provide - the more precisely I'll be able to draw what you want

- The more visual references you provide, the better

- If the facial features of the character are different in the references provided because of different artstyles, please tell me which one of them is the most accurate

- I might put some textures onto a flat-colored drawing to spice things up. However, I can easily remove them if you feel like the drawing's better without them.

- The number of free major fixes for each stage of the drawing is limited. 5 for the sketch, 2 for the lineart, coloring and shading - depends on how difficult it is for me to do. I might swap some base colors underneath the shading or even recolor shadows for free, but changing the light source is too much work on a detailed full-body drawing. I do MANY layers of shading.

- 50% of the payment is required after the sketch is done and the other 50% - when the work is finished. Although if you're willing to pay full price in advance - you can do that.

- The work will be watermarked until I get paid

- My average canvas size is 2000 x 2500 pixels for a full-body pic

- The expected time limits must be discussed in advance

- Please don't be rude

## **Things I'm not going to draw:**

- Underage characters in sexual situations

- Incest

- NSFW with the OCs that belong to other people without the owner's permission

- Non-consensual sex / harassment

- Kinks that include faecal matter, flatulence or urine

- Blackface/whitewashing, slimming down thick characters, NSFW with canonically asexual characters and other things that are hurtful for minorities and marginalized groups of people
