

Notes for Chapter 5  
Lesson 3

Directions: It is your groups job to make notes for the rest of the class for lesson 3. You need to split up this lesson among your group and take notes for each other. This will be part of your review guide for the test for this chapter so be sure your notes are thorough!!

After completing notes, it is your groups responsibility to come up with 5 test questions. I will then pick and choose (might be one, might be all 5) which questions to use on the test for this chapter in whatever form I see fit (Multiple Choice, short answer, etc...).
