

Hey Vasilios,

Your sculptures are an awe-inspiring fusion of creativity and skill, breathing life into stone and metal with an enchanting mastery that leaves a lasting imprint on the soul.

Yet, your brand could be improved and gain greater fame, using a powerful strategy – a lead funnel. Picture this: a journey starts from a social media platform that magically evolves customers into eager purchasers through a well designed roadmap.

My job is to create a seductive Instagram Ad, rewrite your landing page to make it more interactive, and to write email newsletter to maintain customer connection.

I've attached a gift for you, it's a rewritten landing page that I created to make your home page more engaging

Interested in a detailed discussion of each step of the lead funnel? Shall we do it via a Zoom call?

Best regards,

Osama
