Visionary Board Leader Driving Digital Transformation, Cybersecurity, and AI Innovation | Global Transformational CIO and Business Leader of a \$9B Global P&L

Lisa is an accomplished board member and award-winning global business and technology executive with a proven track record of driving enterprise modernization, optimizing governance strategies, and fostering innovation in AI, cybersecurity, and digital transformation. With over 30 years of experience across healthcare, high-tech, federal government, and academia, she has successfully led \$300M in digital transformation initiatives in healthcare and turned around of a \$9B global business.

Lisa is a sought-after keynote speaker, thought leader, and mentor. In 2024, she joined the board of 3Strands Global Foundation, a non-profit dedicated to combating human trafficking through prevention education, reintegration programs, and advocacy. She currently serves on the board of Movius, a \$30M AI-powered, leading global provider of secure mobile unified communications.

Lisa recently served as EVP and Chief Information Officer of Blue Shield of California, a nonprofit health plan with \$26 billion in annual revenue. She led and developed the digital transformation strategy to transform the healthcare system, supporting cybersecurity and leveraging digital technology, data, and AI to accelerate the delivery of modern digital services and capabilities to improve the customer and provider experience.

Prior to Blue Shield, Lisa served as VP and General Manager of Enterprise & Government Data Center Group for Intel Corporation. There she turned around the \$9 billion failing global data center business, bringing it back to profitability after it experienced a 7-year decline. Prior to Intel, she was the CIO at Georgetown University where she created and executed a digital transformation that modernized the institution's infrastructure and provided digital tools and services to ensure competitiveness as a top-tier university.

She had a successful 26-year career in the federal government. She became a member of the federal senior executive service, serving as the CIO of the U.S. Marshals Service in the U.S. Department of Justice, as well as CIO of Counterintelligence Field Activity in the U.S. Department of Defense, where she managed networks of multiple security classifications and led global technology transformation and cyber security strategies.

She is a recognized expert in Cloud, Edge, Cyber Security and AI technologies and architecture. She is a champion for women in STEM fields and has chaired women's leadership groups throughout her career. Lisa has been awarded the 2023 National ORBIE CIO of the Year for Healthcare, 2022 Bay Area Orbie CIO Award for Healthcare, CIO of the Year 2022, Forbes CIO Next List for 2022; Future Edge 50 Award for real-time claims settlement 2021; CIO Hall of Fame Award 2021.

She holds a Master of Science in Human Resources Management from Golden Gate University and a Bachelor of Science in Computer Engineering from Syracuse University. She held a CISSP in 2003 and TS/SCI U.S. security clearance (inactive). She has been married for 25 years, with three adult children, is an outdoors enthusiast, passionate about health and wellness, and developing the female pipeline for STEM fields and entrepreneurs.
