

Avatar: Lizzie, 22 y/o, wants to improve her physique

Current State: Lizzie is a skinny fat girl that wants to improve her physique, she wants to reach her goals but doesn't know how. She has never been in a gym, and she doesn't know how her body works, and what her needs only have goals, but goals without a plan mean nothing. She doesn't have much time to dedicate to the gym because of university, and most of the time school makes her feel unmotivated and so tired that she just wants to sleep for the rest of the day.

Dream State: Lizzie wants to fully understand what she has to do to build her dream body, she wants to feel like going to the gym, working out, and having time to do it effectively. She wants to have a big plan to follow every day with people that support her in reaching her goal.

Roadblock: The thing that is keeping Lizzie away from reaching her dream state is that she doesn't know how to reach it. She doesn't have a plan and doesn't know how to build one because of her inexperience.

Solution: If Lizzie has a program that works for her and helps her reach her goals, she will start building the body of her dreams.

Product: The product is an actual fitness program with workouts at home or at the gym, nutrition programs, meditation programs, and everything that could help Lizzie during her journey. What I'm writing is an opt-in page that gives Lizzie access to this fitness program for a whole week where she will be testing the program and understanding whether she likes it or not.

Welcome!

Try the program for 7 days for free, and start your journey for a happier, more confident, and better-looking you!

Use for free the method that helped hundreds of women like you change their lives and crush their goals, not just in fitness but also in life.

Why was this program created?

During my fitness journey, I went through days where the last thing I wanted to do was be constant with the gym and the diet because they were too tough. I was putting myself through a lot of suffering.

I was destroying myself physically by spending hours at the gym hoping to see some improvements. As well as mentally by following a restrictive diet that drove me crazy and in the end brought me **ZERO** gains.

All that time, nevertheless, taught me something. It taught me that you should not hate living your fitness life, you should live it positively.

Your fitness life should make you happier and more confident in yourself, making you feel full of energy from sunrise to sunset,

Not stressed every time someone talks to you or so tired that you risk falling asleep whenever you sit on the bench at the gym.

That's why I gradually started making tiny changes during my days, first I indulged in some of my favorite meals in my diet,

Then I started working out with a purpose, not to the point of crawling to the ground to get back home.

And I'm grateful I lived those tough moments because they drastically helped me come up with the method that transformed my out-of-shape body into a temple of natural health and beauty.

So I decided to give hundreds of other women the chance to try and work with my method, to achieve their fitness goals...

Every single one of those who used my program has never been happier and more confident with their body, and you could be one of them too!

A lot of them had tried other programs in the past, but none of them worked, and the reason is just one, they weren't given the right **SUPPORT**

Let me tell you one little secret.

It doesn't matter if you:

- have the best program ever
- built by the most expert personal trainer you can find on earth
- you work out at the best gym with the most sophisticated training machine on the planet

-you eat the most nutritious food you can find at the best groceries stores in the world

-use the best supplements that big fitness stars use

Because if all of this isn't useful for you and isn't structured to help reach your goals

IT IS NOT GOING TO WORK!

My unique and proven method will easily help you significantly transform your current body into the most wanted physique on the beach. Those shiny abs and marble glutes will finally be yours, and not only that...

In this program, you will not only find workout materials, we are not limited to that. You will also discover:

-How to personalize your diet to make it the most functional to your situation and your goals (forget about the **bland meals** you are thinking about)

-How to relax and release all of your daily stress with yoga sessions together with a professional yoga teacher

-The secrets to alleviating the pain and feeling way better during a stressful moment of a woman's life, our period.

AND MORE!

Because success doesn't come from 1 hour a day at the gym, success is shaped at 360°, and I want you to succeed in every realm of your life and in the easiest way possible.

Everything you'll need to reach your goals and feel a better woman will be here.

Try this program, the only one you'll find that will make you say "I can't wait to work out today"

HOME WORKOUT SECTION:

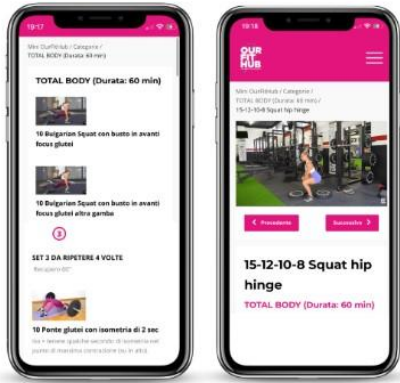

Here's where you will get those home workouts I was talking about before, specifically you will get:

-Abs & Core workout (15 minutes)

-Legs and Glutes (45 minutes)

Those 2 workouts are extracted from the complete program, and you can do them at home, weights won't be strictly necessary, you can use booty bands and simply bottles of water.

At the end of the workout, you will be amazed by how motivating a live workout will be, with me directly there to support you, and by the acknowledgment that you don't need to spend 3 hours at the gym to have an effective workout.

WORKOUT GYM SECTION

Here's where you will find the gym workout.

You will get a PDF to download where there will be all the exercises to do during that workout.

You will not be alone there either, I will provide you with videos to explain how to execute every single exercise to make sure that you get the most out of this workout.

WORKOUT EXTRA SECTION

Seeing that **A LOT** of my girls are students or workers, or simply do have not so much time to dedicate to workouts, I created this section to guarantee you make progress with your body and reach your goals, even when you have just 30 minutes a day.

Specifically, you will find a HIIT (high-intensity-interval-training) workout, recorded in a special location by the sea.
