### *3. Declare the result of the vote to confirm L Martin of the Baffin Republic to become one of the three justices.*

### *4. Desslok proposes a reevaluation of Etukan's application*

*"They have alot of initiative. After Being voted no earlier in their first application. They have changed up and improved. They also have made a very Professional MEF Charter and I see he has the potential to lead the Business BLOC.*

*I have seen no raids or any activity that would bar them recently"*

### *5. Desslok proposes ideas for the guidelines for the Junior Micronationlist Org*

"Adding onto the idea for Junior Micronationalists, there was a Roosevelt Convention that fell into the hands of the Nexan Republic.

Its currently inactive as such a convention was intended against raiding and not limited to any specific community, but as a whole.

Being that its now inactive and lost its old purpose, a revival for use in such a Junior Micronationalist Org would be the rules and guidelines for them to abide by. A set of codes for them to disavow raiding, be mature, and create an environment where they could learn and develop before fully going into the LIN. First with provisional membership to prove themselves and then gaining full after some time."

### *6. The delegate from the NeoUK wishes to formally object to the use of a TOR site*
