

Quinoa 3 Ways

Clean & Delicious food blogger, Dani Spies, needs your help! She's already filmed a video about quinoa, titled "Quinoa 101: Everything You Need to Know". The feedback on this episode was so positive people are crying for more quinoa ideas. Now she wants to create more quinoa episodes and is looking for recipe suggestions.

Your role is to use the provided template to create an infographic style visual titled "Quinoa 3 Ways" that includes a snack, a main dish and a salad (no video foods allowed). This visual would feature your recipe suggestions. *Keep in mind*: Recipes should be easy and affordable to prepare because they utilize basic cooking skills, common ingredients and simple tools/equipment. Recipes should also vary by the cooking method. See sample below of setup.

Visual Criteria includes:

- Name of the Dish for each selection
- A Picture of the Dish for each selection
- Hyperlink of the Recipe Instructions/Website to the Name of the Dish for each selection
- The Cooking Method named/labeled by type (dry, moist, combination) for each selection
- A List of all of the Ingredients labeled by Food Group, Seasonings or Miscellaneous (must include the quinoa) for each selection
- Correct Spelling, Grammar & Writing Mechanics
- Your name as a footer

Rubric

Criteria x _____points	**Present**	**Not Present**
