

Benchmark Survey

Our district currently utilizes the OnHand's benchmark assessment system that is aligned to the PSSAs and Keystones. What are other districts utilizing for benchmark assessments?

1. **Uniontown** - We were using 4SIGHT, but they are no longer going to be paper-pencil. We are piloting CDT's this spring. May use either CDT's or Catch Up with Coach next year.
2. **Fort Cherry** - We use IXL ELA and Math.
3. **Cannon Mac** - Canon-McMillan uses our own district created benchmarks and publisher benchmarks
4. **Charleroi** - We use OnHand's benchmarks, but this will be our last year with them. We are looking for a new benchmark program as well.
5. **Southeastern Greene** - SEGSD uses OnHands
6. **West Greene** - We currently use a mix of DIBELS and Moby Max for benchmarking purposes. We are moving to STAR Assessments for 2021-2022.
7. **Burgettstown** - We are using EasyCBM in grade K-8.
8. **Washington** - We are using NWEA MAP Assessments in the Washington SD (K-10). We are considering using the CDTs as well.
9. **Central Greene** - We are looking into Edulastic. It is PA Core Aligned and has a bank of exams questions that can be used to create your own benchmarks, and also moderately priced (\$4.00 per student).
