Sonnet Recitation: Self-Evaluation and Reflection

Reflecting:

What kinds of techniques did I use to memorize this sonnet?

Was this easy? Difficult? Medium? Why?

What new understanding of the sonnet did I gain from attempting to learn it by heart?

Listening & Discussing:

Which parts seem the easiest for everyone to remember / recite smoothly? Why might this be?

Which parts seem to be the toughest for everyone? Why might this be?

Which words and phrases felt emphasized in others' recitations?

After listening to other group members recite their sonnets, what do I now understand a little better or differently about my sonnet?

Self-Assessment:

Please highlight the category that you feel best fits your sonnet recitation. Ask your group members for their input if you need to. This grade will be worth 20 points in the category, "Other Writings and Activities."

18-20 (A)	16-17 (B)	14-15 (C)	11-13 (D)	0-10 (F)
I had my sonnet mostly or completely memorized, and I brought meaning to the words through my use of inflection, tone, volume, and pace.	I had my sonnet somewhat memorized, but I had to glance down at it frequently. I think I gave it the best I had today.	I mostly read aloud from my copy of the sonnet, but I really did try. I did participate in my group's discussion.	I did not make much of an attempt to memorize my sonnet. I wasn't as engaged in my group's discussion as I could have been.	I just didn't do it. I just didn't.

Overall grade: _____ / 20 points
