Notes

Move CloudToGo introduction at the end of the topics to be able to setup screensharing.

Gsoc 2018:

- Need mentoring for GSoC
- Cool if community around Eclipse Che could propose some topics
 - https://wiki.eclipse.org/Google_Summer_of_Code_2018_Ideas
 - Topics of the previous year:
https://wiki.eclipse.org/Google_Summer_of_Code_2017_Ideas

Che 6 GA:

- Endgame for che 6
- During this week, polishing and finishing new docs, getting ready with release notes
- Expect the release of Che 6 happening this week

- Announcement might happen next week once website/materials are ready and online

CloudToGo:

- Live Demo of Che running at <http://ide.cloudtogo.cn>
- Beta test opening next month

K8s work:

- Mario/Sergii are starting to work on that.
- Progress can be followed from github issue <https://github.com/eclipse/che/issues/5908>
- Some POC made by SAP / Guy Daich
- Guy Daich:
 - Will it run on minikube ? (answer = yes : minikube + kubeadm)
 - Are integration tests available (not selenium based)
