

## **ͽ**♡**ͼ** First off, ACAB, FUCK ICE, FREE PALESTINE, BLACK LIVES MATTER AND FUCK AI

**o**♡**o** This is a space constantly working towards diversity, inclusion, and liberated spaces for marginalized identities. Therefore there is a **ZERO tolerance policy** for racism, homophobia, transphobia, fatphobia, sexism, xenophobia and ANYTHING that could be considered bigotry.

This space is highly left leaning and there may be political discussions, as Gray is a queer disabled person in America, her entire existence is political. There are plenty of streamers that avoid divisive topics if this is something you are looking for, but this stream will not be one of them.

**ͽ**♡**c** Gray heavily implores all of their viewers to do research and learn about the impact colonization has had on the world. Decolonizing your understanding of the world starts with diversifying your content, so please do not let these words from a white American be the last thing you hear about decolonization.

**ə**○**c** Gray wholeheartedly supports the **liberation of the Palestinian people** and believes in a free, reunited and sovereign state of Palestine. If you are unaware of what has been going on in Occupied Palestine and what has been currently happening here are two great resources to start with:

- Free Palestine Master Document
- Free Palestine Education course created by a Palestinian
