

Monki Life uses Photon and Playfab.

Photon makes the game multiplayer and also makes communication possible like using your microphone and wifi, using wifi allows you to join lobbies and play with others. Playfab stores your IP and city and also stores in game currency and allows you to get items in game. For instance, you can buy a cosmetic like a cowboy hat for 1000 Monki Dollars. Monki Dollars is the in game currency for Monki Life. If you want data removed contact the email:
