

Greetings,
Folks

Over the course of the last month we have worked to prepare for the transition to our first Steering Committee. Previously we were an Interim Steering Committee which served for several months at a time. This will be a big transition as new members move into steering for year-long terms. We are happy to see so many folks willing to step up into leadership roles!

Marlee has spent a lot of time working to coordinate the upcoming Leadership Retreat in Sacramento. Renee and Marlee wrote an article for the Democratic Left to introduce the chapter. Vee helped edit it. I have been working to prepare to transition over to Outreach Coordinator. We are working to make sure we authorize sufficient funds for Outreach events this summer.

We hope that folks who are not in a working group talk to leadership to get more involved. Finally, we hope anyone not in DSA joins today! I am available to help with this after the meeting. Folks interested in working groups should talk to the leadership of the working group they want to join.
