

The Hamburg Central School District has gone green with progress reports and report cards available on the eSchool Parent Portal website.

A **Parent Portal** account provides you with 'one-stop shopping' no matter how many children you have in the district or which buildings those children attend. With a Parent Portal account, you can log in at any time. Because of the family-oriented design of the database, you will not need multiple login accounts. The system does all the work of correctly matching you with your children. As you register your new kindergartner, their information will instantly be pushed to your portal view.

The Portal can be accessed by parent/guardian of enrolled students who are linked by a guardian flagged relationship in the district's student management system.

First time users can click the “Create A New Account” link

Tips for the account request page:

- On the account request page, type your name exactly as it appears on your child's registration information. Create a username—do not use your email address as your username.
- Only sign up for one child—once your account is approved you will automatically gain access to information for all children you are linked to in the registration information.
- You will be able to change your password, email address, and username by clicking on the *My Account* tab. Each guardian is limited to one account per name/email address.

Once you have successfully submitted your account request, district personnel will review it. Once approved, you will receive an email containing a link to log in to your account and view your child's information.

Information available through the Portal:

- Grades 4-5:
 - Family Demographics,
 - NYS Assessment Scores
- Grades 6-12:
 - Family Demographics
 - Schedules
 - Gradebook Information

- NYS Assessment Scores
- NYS Regents Exam Scores
- Attendance
- most recent Report Card and Progress Report
- Student Transcript

To access your child's New York State Assessment results, log into the Parent Portal, click on your child's name that you want to view, then click on the "Assessments" tab. In center of the screen click on "Parent Assessment Reports"- a new window will open with a Welcome Letter. To view the parent report click on "NYS Assessment Reports" then click on the assessment name you would like to view.

If you would like your *New York State Parent Report* mailed home to you please contact the building your child attends.
