# How Do I Find My Feedback?

Click here for a video tutorial from Mrs. Fred, another Language Arts 10 teacher.

There is a wonderful feature inside of Edgenuity that allows me to leave comments on individual assignments. Often, if you don't do well or there is a problem with your assignment, I will leave you feedback explaining how to correct it. To see your feedback, follow these steps:
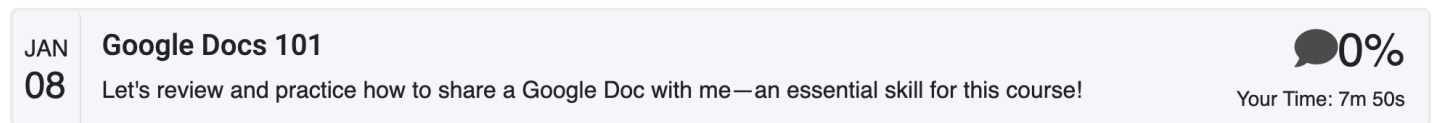

Step 1

Log in to the class. Make sure you click on the class tile/box, not on "next activity."

Step 2

Look for your assignment with a comment bubble next to it. Click on the assignment to open it up.

Step 3

You should see a small, blue comment bar with a bubble at the top of the page like this:

When you click on that pencil icon, the feedback will expand in a box below.
