

Big One Seeding Information

NEIFC

We consider the following when generating a fencer's initial seeding for this event:

- [Previous Season's Big One Result](#)
- [USA Fencing Classifications](#)

The criteria that gives the best possible initial seed is used. (Lower numeric values are better.)

Previous Season's Big One Result

Points awarded for top 32 placements in previous season's Big One. Points do not carry from one weapon to the next. (Your 3rd place finish in sabre last year does nothing for you if you are now fencing epee.)

* The Big One does not fence off for third place so there are two third place finishers and no fourth place finisher.
