

You should now have a relatively good understanding of American cultural values. It's time to widen this understanding, and it is time to share your knowledge.

1:

Read your part in the doc ALOUD in your specialist groups (take turns and help each other)

2:

Discuss the contents with your specialist group

3:

Google your topic and add information/images/sound/video clips (1 min. footage, each clip - max.!) to a presentation of your topic.

4: Prepare a short list of notes on your topic that you can hand out to the members of your matrix groups

5:

Practice your presentation - All members of your group must present your work in matrix groups.
