Dear Ralph:

I see that you have added information regarding the ceremony we had yesterday in commemoration of the International Day of Remembrance of the Holocaust. This was the first time that we have had a public ceremony in commemoration of the Holocaust and it was organized together with the Office of the United Nations in Quito and the Embassy of Israel, and was held at the FLACSO (Facultad de Ciencias Sociales).

I represented the community in the program. In case you are interested I am attaching a copy of my speech.

Un abrazo
Pedro Steiner
