Crypto wallets

Faucetpay(部分水龍頭收款用, 可再轉帳到加密貨幣交易所->銀行for cashout of some faucets, you may withdraw to Faucetpay->transfer to your crypto exchange account->your bank account)

FaucetPay one of the most popular micro wallets. It is a convenient and functional rotator of crypto faucets. Inside the wallet, users get detailed information about the many faucets of various cryptocurrencies. There are a lot of faucets in the rotator, you can check their solvency and choose the most interesting options, you do not need to store a bunch of

bookmarks in the browser. There are games with the ability to earn cryptocurrency. Payments from rotator faucets are made directly to FaucetPay, and your main crypto wallet is linked to it in turn.
