

Ready or Not Review

DO NOT see this film if you have a problem with violence or gore. Both are very present in this movie.

What I liked about the movie:

- The performances from the actors were great: Adam Brody and Samara Weaving
- The directors played with the folk horror genre and I enjoyed how it handled
- Comedy worked for me in this movie.

What I didn't like about the movie:

- The tone of the movie was a few times inconstant. There were a few scenes where it was taking itself seriously and it would have been better served staying constant with the dark comedy tone.

Overall thoughts:

I went into this film expecting the standard slasher film and was pleasantly surprised to get a folk horror comedy. Samara Weaving gave a great performance. She seems to shine in the horror genre, as the Babysitter was another movie in the same vein and I was surprised with how much I enjoyed that movie. (Netflix movie but has extreme gore and violence so warning with this film). It's not the best in the genre but still a good entry and worth seeing if you enjoy the genre.

Rating: 8/10
