How to Craft Writing that Slaps

Featuring: The Tale of the Wandering Wordsmith

Once upon a not-so-distant time, a writer sat at their desk, staring at the dreaded blank page, threatening to pull out thick, knotted clumps of their own hair.

Their mind held no shortage of ideas—but each one seemed trapped behind a thick fog, encased in an uncrackable shell. Hopelessly, they scribbled a few sentences...

But their words clung to the page like limp leaves, lifeless and dull.

Frustrated, the writer cast aside their pen with ferocity, longing for magic—something to lift their words to the heavens, to strike a chord in the hearts and minds of their would-be readers. Their life carried on like this for some time...

Until one evening, under the full moon's watchful glow, the writer was wandering through a nearby forest, their thoughts swirling with hopeful dreams of brilliance.

Following the moon's few plucky beams that managed to cut through the trees...

The writer stumbled upon an ancient, creaking door hidden—nestled with care—in the roots of an oak tree. Above the door was carved: **The Vault of Wordcraft Secrets**

The door swung open, beckoning them inside. Within lay shelves brimming with golden quills, crystal inkwells, and books whispering secrets of persuasion, imagery, and flow. An enchanting figure appeared—a mentor who spoke with lyrical wisdom.

“Words,” the mentor announced, “are the alchemy of the soul.

Yet too often, we write without harnessing their true power. Step into this vault, and I will teach you to wield words like spells, to turn sentences into songs, and to weave stories that shimmer in the minds of readers long after they’ve closed the page.”

Your (Probable) Curiosities, Answered

Q: I'm new to copywriting—will *The Magic of Wordcraft* still work for me?

*A: Truthfully, now is the BEST time to learn *The Magic of Wordcraft*—before bad habits can form, or existing knowledge and skill gaps influence the work with your first clients. *The Magic of Wordcraft* will help you master the foundations of powerful writing, and the magic will grow with you as your copywriting skills develop.*

Q: How much time do I need to commit each week?

A: The Magic of Wordcraft is designed to take up as little time as possible. The theory for each module can be read in ~5 minutes. I suggest allocating 20 minutes for the practice exercises, and perhaps 30 minutes for working on your Capstone Project.

So, setting aside two hours per week should be more than enough.

Q: Will *The Magic of Wordcraft* help me with writing [insert your medium here]?

A: Absolutely. The techniques you'll learn can transform anything from blog posts to novels, emails to texts, landing pages to love letters. The Magic of Wordcraft is all about writing with intention, emotion, and power—which apply to ALL writing.

Q: What if I get stuck or need feedback?

A: For this exact reason, you'll be invited to The Magic of Wordcraft's Slack channel where you can post your practice exercises, ask questions, and share your Capstone Project for feedback from myself and your fellow apprentices.

A: Most copywriting courses focus only on teaching sales formulas and persuasion principles—which only accounts for half the role of “copywriter”. In contrast, The Magic of Wordcraft shows you how to blend proven persuasion principles with beautiful writing for maximum effect. We don't just focus on the how—but also the why, the when, and the wonder within words.

Q: Is there a money-back guarantee?

A: Of course! If you're not seeing newfound magic in words after completing The Magic of Wordcraft, simply let me know, and I'll give you a full refund. No hard feelings—only gratitude for giving it a go! The only qualifier is that you must show you've completed all the practice exercises in order to claim your refund.
