Emergency Communications-Related UASI Project Proposal: SWIC Submission

READ BEFORE COMPLETING THIS FORM:
- The RDPO will send this form to the Oregon Statewide Interoperability Coordinator (SWIC) for review. The SWIC must approve all emergency communications-related projects. The Oregon SWIC will coordinate with the Washington SWIC as appropriate.
- If an applicant is purchasing radio equipment, submit [P25 statements of compliance](#) with your final application materials.
- For general questions, RDPO assistance, or technical assistance specific to emergency communications, contact: PBEM-UASIgrants@portlandoregon.gov

Requested Budget for Emergency Communications Components: $
Full Application Materials [LINK - RDPO TO GENERATE]

Brief Description of all POETE emergency communications components in the project:

How does the project comply with [SAFECOM Guidance](#)?

How does the project support national goals and objectives in the [NECP](#)?

How does the project align and comply with the [Oregon SCIP](#) and or [Washington SCIP](#)? NOTE: If your emergency communications investment crosses state lines, it must align with both SCIPs. If it is fully within one state, it only needs to align with that state's SCIP.
