I. PENDAHULUAN

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and

more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum

IV. METHOD

1. Research Design

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.

2. Data

The data collection was conducted in the following stages.

Step 1: Extracting titles and times cited for Nature and Science articles from WoS
WoS's Advanced Search facility was used to limit Publication Name (Nature/Science), Time Span (From 2007 to 2007), Restrict Results (English and Article) and then select Title, times cited for the 793 Nature articles and 820 Science articles.

Step 2: Counting how many users have posted each title in CiteULike
CiteULike allows both title searches and formatted reference searches. Most title searches were straightforward. However, a title with a formula very often did not return a relevant search result. Consequently a new search was conducted without the formula. For short titles, formatted reference search was used instead of title search. In addition to these issues, users who posted a title can be individuals and also sometimes can be groups. A group was deemed to be an individual for the sake of simplicity.

Step 3: Counting how many users have saved each title in Mendeley
Mendeley allows title searches but not formatted reference searches. Nevertheless, it provides advanced search facilities which allow searching by title, author, abstract etc. The same strategies as in Step 2 were applied to handle the formula and group issues.

Step 4: Counting citations using Google Scholar
Article titles were searched as phrases using double quotes in Google Scholar. Most title searches were straightforward. The same strategies as Step 2 were applied to handle the formula issues.

In order to ensure consistency, all data were collected in July 2010.

V. DISCUSSION

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s,

when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum
