Course Overview

In Grade 2 Social Studies, students explore the importance of families and communities and how people work together to build strong relationships and solve problems. They study people, places, and the environment by learning about geography, landforms, weather, and how people adapt to and change their surroundings. Students also examine how people meet their wants and needs through jobs, goods, services, and trade. Through the study of American culture, students learn about traditions, diversity, national symbols, holidays, and the many contributions people from different backgrounds have made to the United States.

Summative Assessment(s):

- Family Tree Project: Students create a simple family tree, drawing and labeling their family members. They can present their family tree to the class and explain their relationships.
- Community Helpers Poster: Students create a poster about a community helper (e.g., police officer, firefighter, teacher) showing what they do and why they are important. They can include drawings and a brief written description.
- Community and Family Quiz: A short quiz with questions about different types of families, roles within a family, and community helpers. Include multiple-choice, true/false, and short-answer questions.
- My Community and Family: Students draw a picture of their family and a picture of their community. They then write a few sentences about each drawing, describing who is in their family and what they like about their community
- Community Helper Role-Play: In small groups, students role-play different community helpers and their jobs. They can perform a short skit showing what they do in their roles and how they help the community.
- Community Map: Students work in groups to create a map of their community, labeling important places like schools, parks, and hospitals. They can also include their homes and discuss why these places are important.

	<ul style="list-style-type: none">● Create a Booklet: Have students create a small booklet about Election Day. They can include pages on what elections are, who can vote, and why voting is important. Encourage them to draw pictures and write simple sentences about what they've learned.● Role Play Voting: Students can role-play different parts of the election process, such as being voters, candidates, or election officials. They can act out a scenario where they decide on a classroom rule or choose a class representative.● Role Play Voting: Students can role-play different parts of the election process, such as being voters, candidates, or election officials. They can act out a scenario where they decide on a classroom rule or choose a class representative.● Match Jobs to Descriptions: Provide students with pictures of different first responders and a set of descriptions of their jobs. Have students match each picture to the correct description. This helps assess their understanding of each role.● Good Citizen Community Poster Rubric (3 Criteria) Identifies a responsibility or rule that supports the community Includes clear visuals and labels Explains ideas orally or in writing with effort and accuracy

This can be done individually or in small groups.● Quick Writes-Give students a prompt related to the day's lesson and ask them to write a few sentences or a short paragraph in response.● Quizzes and Polls- Use short, informal quizzes or online polls to gauge students' understanding of the material.● Four Corners- Ask a question and give four possible answers. Each corner of the room represents one answer, and students move to the corner that represents their choice. Discuss why they chose their answer.

- Graphic Organizers- Have students use Venn diagrams, T-charts, or other graphic organizers to compare and contrast concepts or organize information.
- Journals- Students keep a journal where they regularly write about what they've learned in social studies, reflect on their learning, and ask questions.
- Gallery Walks- Students create posters or visual displays of what they've learned and then walk around the classroom to view and discuss their peers' work.
- Interactive Notebooks- Students use interactive notebooks to record and organize information. This can include foldables, drawings, and written reflections.
- Class Discussions- Engage students in discussions about the lesson. This can be done as a whole class or in small groups.
- Peer Assessments- Students assess each other's work using a simple rubric or checklist. This encourages collaboration and self-reflection.
- K-W-L Charts- Have students fill out a K-W-L chart (What I Know, What I Want to Know, What I Learned) at the beginning and end of a unit.
- Mini-Projects- Assign small projects that require students to apply what they've learned. This can be done individually or in groups.

	<ul style="list-style-type: none">● Unit Performance Tasks, Projects, and End-of-Unit Assessments aligned to instructional goals.● Student Reflection / Self Assessment● Comparison Chart-Students create a chart comparing different types of homes and communities (e.g., urban vs. rural, apartments vs. houses).● Venn Diagram-Students use a Venn diagram to compare and contrast their community with another type of community (e.g., a city versus a countryside).● Story Writing-Students write a short story about a day in their life in a different type of community. The story should include descriptions of places they go and people they see.
	<p>Formative Assessment and other evidence:</p> <ul style="list-style-type: none">● Exit Tickets-At the end of a lesson, ask students to write or draw one thing they learned and one question they still have about the topic.● Think-Pair-Share- Have students think about a question related to the lesson, discuss their thoughts with a partner, and then share their ideas with the class.● Concept Maps-Students create concept maps to show relationships between key concepts from the lesson. This can be done individually or in small groups.● Quick Writes-Give students a prompt related to the day's lesson and ask them to write a few sentences or a short paragraph in response.● Quizzes and Polls- Use short, informal quizzes or online polls to gauge students' understanding of the material.● Four Corners- Ask a question and give four possible answers. Each corner of the room represents one answer, and students move to the corner that represents their choice. Discuss why they chose their answer.● Graphic Organizers- Have students use Venn diagrams, T-charts, or other graphic organizers to compare and contrast concepts or organize information.● Journals- Students keep a journal where they regularly write about what they've learned in social studies, reflect on their learning, and ask questions.● Gallery Walks- Students create posters or visual displays of what they've learned and then walk around the classroom to view and discuss their peers' work.

- Interactive Notebooks- Students use interactive notebooks to record and organize information. This can include foldables, drawings, and written reflections.
- Class Discussions- Engage students in discussions about the lesson. This can be done as a whole class or in small groups.
- Peer Assessments- Students assess each other’s work using a simple rubric or checklist. This encourages collaboration and self-reflection.
- K-W-L Charts- Have students fill out a K-W-L chart (What I Know, What I Want to Know, What I Learned) at the beginning and end of a unit.
- Mini-Projects- Assign small projects that require students to apply what they’ve learned. This can be done individually or in groups.

**Meeting the Needs of Students
Overview of Accommodations and Modifications**

Students with Special Needs	<u>MLLs</u>	Students at Risk of School Failure	<u>Gifted and Talented Students</u>
<p>Students will be supported through guided map activities, simplified directions, chunked assignments, visual organizers, and frequent comprehension checks. Teachers will provide accommodations aligned to IEP/504 plans, including extended time, preferential seating, and access to visual supports and assistive tools as needed.</p>	<p>Multilingual learners will be supported using visuals, labeled maps, word banks, and explicit instruction in geography vocabulary (e.g., region, climate, landform). Teachers will use WIDA/SIOP strategies such as modeling, sentence frames, and structured partner talk to strengthen both language development and content understanding.</p> <ul style="list-style-type: none"> • Use Shelter Instruction Option Protocols (SIOP) 	<p>Students at risk will receive additional scaffolding through small-group reteaching, repeated exposure to key geographic concepts, guided practice with maps and texts, and check-ins during independent tasks. Teachers may provide reduced-choice activities, targeted vocabulary review, and home support resources when appropriate.</p>	<p>Gifted learners will be offered extension opportunities such as independent region research, creating more detailed maps, comparing multiple geographic perspectives, and presenting findings through writing, visuals, or digital tools. Students may also engage in inquiry-based projects exploring how geography influences community life.</p>

Unit 3: How Do People Get What They Need?	Grade: 2		Pacing: 3 - 40 minute periods per week (9 weeks)
<p>This unit will introduce students to the basic concepts of how people obtain the resources and services they need to live. Through engaging activities, discussions, and projects, students will learn about different methods of acquiring necessities and the roles various community helpers play in meeting those needs. Students will also learn about influential African-American figures in history and their contributions.</p>
