

Team Number: \_\_\_\_\_

We agree to abide by the following rules and expectations regarding using the Lego kits, BrickPis, and other 16-281 course materials, working in the REL and interacting with our classmates and course teaching staff.

- Course hardware (the Lego kits, BrickPis, batteries and chargers) are on loan for the duration of the semester and it is our responsibility to return them to course staff in good working order
- We are not allowed to use anything that will leave residue on any REL LEGOs or the Raspi cases. Including but not limited to:
  - Super glue, Hot glue, Duct tape, Masking tape, Clay, etc
- We are permitted to use only the material in our kits, and any extra materials specified in particular labs.
- We must ask a TA if we want to use anything else in the REL (no digging around for extra materials/parts unless a TA is aware and allows it)
- Course hardware (the Lego kits, BrickPis, batteries and chargers) must be returned to course staff before the final exam
  - Hardware will be checked to ensure working order, and parts, upon return
- The REL must be kept reasonably clean
  - No materials can be left on non General Robotics desk
  - No food or beverages can be left in the REL
  - Kits can be stored in specified locations in the REL
- We will abide by the Reasonable Person Principles and treat our classmates and the course staff with courtesy and respect

Signed,
