Curriculum, Instruction & Assessment Report

Gallup Survey & Development of Career Pathways

New Hampshire Learning Initiative (NHLI) and Gallup worked together to create a New Hampshire version of the National Student Gallup Poll (for grades 5-12) that includes career-connected learning opportunities. The group purposely removed items that might be construed as non-academic, and all demographic information except for grade level. WHS will be participating in this 15 minute poll during the month of May.

Work-Based Learning Activity Categories

Awareness	Exploration	Experience
Career Fair	Field Trip	Internship
Professional Classroom Panel (group of people talking about their jobs/careers)	Career and Technical Education (course(s) in school directly related to a job or career path)	Externship
Mock or practice interview(s)	Mentorship	On-the-job Training
Industry awareness month (ex. Manufacturing month activities)	Industry Tour	Pre-Apprenticeship
Career Interest assessment	Volunteer/Service	Apprenticeship
	Job Shadow	
	Extended Learning Opportunity related to a job or career	

This poll provides the following benefits to the SAU, specifically:

- Provide evidence of programs that are having a positive impact on students
- Help with budget decisions related to opportunities for students
- Provide evidence of efforts in scaling programs
- Measure hope and engagement in all students
- Help promote new pathways for students

Competency Reporting and Curriculum Review

Custom Reports - Standards

Standards Reports	Description
Standards Grades Search Tool	Search for standards grades.
Standards Grades % Breakdown	Gives a breakdown of standards grades for a specific grade level.
Standards Assignments Count	Shows how many assignments have been tied to standards.
Standards Grades Count	Shows how many grades were given to a standard for a given term.
Standards List	Lists current year standards.
Standards Reports (District Breakdowns)	**Description**
District Breakdown - Standards Grades	Shows how different schools have graded standards.
District Breakdown - Course Standards Grades	Shows how different schools have graded standards tied to a course.

In an effort to bolster the curriculum review process and guide relevant & real-time PD for staff, we've begun utilizing Custom Standards/ Competency reports within the PowerSchool platform. This will provide information on student performance and assessment of both standards and competencies. Additionally, this can serve as a guide for prioritizing Professional Development activities and addressing real-time student needs.

NH SAS (Statewide Assessment System)

Each year, New Hampshire public and charter schools are required by state law (RSA 193-C) and federal accountability laws (Every Student Succeeds Act) to assess students using a standardized assessment. We utilize several assessments to comply with these requirements. Statewide assessments are an important part of a student's core educational program.

- They provide an evaluation of student mastery of content and skills in core academic areas
- They serve as one tool for measuring the degree to which students are on track to graduate high school and be college- and career-ready
- They help inform future instruction in the classroom

Student results for the NH SAS are generally available immediately upon the student completing the test. Parents will now be able to view NH SAS student results through the Family Portal. Parents can access the Family Portal by visiting New Hampshire's assessment portal at: https://nh-familyportal.cambiumast.com.
