

## **I, Robot: Future - Will**

**This segment provides you with an excellent opportunity to have students practice "will" to talk about the future. Here you can integrate listening, speaking and grammar in a contextualized manner. Besides, the segment is so gripping, full of food for thought and conversation!**

**Before watching the segment:**

**Discuss the following questions with a partner:**

- 1) Are you optimistic or pessimistic about the future?**
- 2) How different will your city be in the year 2035?**
- 3) How would you describe your city in 2035?**
- 4) What will be better and what will be worse then?**
- 5) Do you think robots will be common in 2035?**
- 6) What tasks will robots have?**
- 7) Will life be better if humans share their space with robots?**
- 8) Would you like to have a personal robot to help/protect you?**

**Read the sentences below. Check the ones that you think will be true in Chicago, 2035.**

- ( ) All electronic appliances are modern.**
- ( ) People won't live in very comfortable homes.**

**(x ) Mail will be delivered by robots.**

**( x) People and robots will share the streets.**

**(x ) Robots will walk dogs for their owners.**

**(x ) Litter collecting will be done by robots.**

**(x ) People will wear the same kinds of clothes we do today.**

**( ) Robots rob people.**

**( ) Robots protect people.**

**Now watch the movie segments and write the sentences above using will/won't, according to what you see in the segment.**

**Ex:1 -Not all electronic appliances will be modern.**

**2 - People won't live in comfortable homes.**

**3 - Mail will be delivered by robots.**
