---

## Parent Notification

---

It is the policy of Sunrise High School to provide notification to parents of their student's progress. Student attendance, homework, and effort are key areas that affect performance.

Parents are encouraged to use the internet, when possible, to review grades and attendance on-line which can be accessed here: [Parent login to BESD grade portal](#)  
Email is also available when needing to contact teachers.

Failing reports will be sent home weekly by SHS to notify parents of their student's failing grades.

Teachers and mentors will notify parents by phone, email, and/or text of serious academic or credit problems.

Correct telephone numbers, correct addresses, mail delivery time, parents' work hours, and student cooperation are all factors that impact the school's ability to notify parents. To aid the school with notifications, parents are asked to verify their student's demographic sheet each fall.

Parents are strongly encouraged to arrange a meeting with teachers before or after school to discuss the student's progress.
