

Multidisciplinary Artist | Co-Producer & Cast of Sticker Movie

Solana Beach, CA | Aliciag319@gmail.com | Instagram @she.posse

ABOUT

ShePosse is an internationally recognized multidisciplinary artist whose work moves between the street and the gallery. Working across stickers, wheatpastes, paintings, and large-scale wall installations, she blends fine art training with the raw energy of graffiti culture.

She holds a BFA in Fine Arts from SUNY Purchase and brings over 25 years of creative practice spanning public art, exhibitions, and collaborative projects.

Created to challenge gender divides in street art, ShePosse focuses on visibility, collaboration, and amplifying the voices of women artists. Her work has been exhibited internationally and shown alongside leading artists including Shepard Fairey and Lady Pink.

Projects such as the *ShePosse Vote Project*, global sticker collaborations, and *Sticker Movie* — where she served as both co-producer and an interviewed cast member — continue to spark dialogue, build community, and expand the presence of women in graffiti and contemporary art.
