

## ALLY LIST

### Promoting Recognition of Identity, Dignity, and Equality (PRIDE) in Healthcare

University of Wisconsin  
School of Medicine and Public Health  
School of Pharmacy  
School of Nursing

Allies who want to advertise their support of marginalized orientations, gender identities, and intersex (MOGII) people at University of Wisconsin health professional schools may join this list. Anyone who is affiliated with health sciences graduate or professional programs outside of the Schools of Medicine & Public Health, Pharmacy, and Nursing are welcome to join. Presence on or absence from the ALLY LIST is a strictly personal decision—no questions asked. Anyone can be removed at any time by contacting [prideinhealthcare@gmail.com](mailto:prideinhealthcare@gmail.com).

Although appearing on this list involves no special responsibilities or privileges, everyone on it agrees to the following statements:

- (1) Marginalized students, faculty, and staff deserve to feel welcome and comfortable at our school, as are all others.
- (2) The presence of MOGII students, faculty, and staff is important for the diversity of our school, as well as the healthcare and public health workforce.
- (3) To the extent that I am willing and able, I will be supportive of students of marginalized orientations, gender identities, and intersex identities.
