CURRENT RESEARCH

- 2022-Present **Equity and Quality in Long-Term Services and Supports (EQuaLS) Lab:**
Collaboration with members of Dr. Tetyana Shippee’s EQuaLS team. Presently working on an analysis of Alzheimer’s disease and related dementia (ADRD) focus groups that target minority populations and examines experiences in nursing homes. As a graduate research assistant this role includes qualitative analysis and collaboration with a team. Further activities include writing and professional development.
- 2021-Present **Families and Long-Term Care Projects Research Team:** Ongoing collaborations with interdisciplinary team of faculty and graduate students (e.g., Gerontology, Epidemiology, and Psychology) support several NIH-funded mixed-methods research studies investigating experiences and support systems for older adults living with Alzheimer’s disease and related dementias and their caregivers. Research topics include online tool development and ADRD. As a graduate research assistant this role includes developing toolkits and engaging in research. Further activities include qualitative and quantitative data analysis, knowledge dissemination through

conferences and public outreach and scientific publications, and professional development.

COMPLETED RESEARCH

- 2021-2022 **“Protecting Retail Customers from Gift Card Payment Scams: A Three-Part Investigation” Graduate Research Assistant:** Worked with Dr. Marti DeLiema and two other graduate research assistants in the School of Social Work at the University of Minnesota. Conducted “secret shopping” to replicate experiences that victims have encountered in order to better understand and enhance the study. Identified and assisted in interviewing managers and cashiers at numerous retailers, constructed transcripts, and developed emerging themes to conclude the study. The findings were presented to staff at AARP and at a national conference.
- 2017 **“Descriptive Study of Physical Activity and Sleep Wellness on undergraduate Students at Howard University Undergraduate Research Assistant:** Selected as one of three students to conduct independent research under the guidance of Dr. Eyombo. The role included survey building, participant recruitment, data management, qualitative analysis, and presented to students at Howard University.

TEACHING AND MENTORSHIP EXPERIENCE

- 2020 **Morehouse School of Medicine Tutor:** Facilitate biostatistical concepts to engage 20 to 30 graduate students in individual and group settings while assisting faculty members with exams, record keeping, and other projects. Adapt biostatistical concepts to promote long-term success in the graduate course for first-year public health students. Provide virtual counsel to 20 to 30 first-year students on class assignments that led to 97% course completion.
- PUBH 7401 Biostatistical Inference
- 2018-2019 **Community Health Educator:** Completed 30+ hours of training in professional development that led to educator certification. Worked with colleagues to support Grassroots’ mission to educate children on sexual health. Collected and analyzed data in low socioeconomic communities to gauge student proficiency and created the teachers’ manuals to guide volunteers in educating middle schoolers.
