

Student Accounts

Per booster meeting discussions this last year (2023-2024), the individual student accounts are being winded down going forward. This does not mean that the swimmers will have any less opportunity for earning money via fundraising towards team trips etc, but the focus will be placed on that in order to keep the cost down for everyone.

- Swimmers can still use the remaining balance in their account towards apparel orders this year, but after this season the account balances will be sunset and will remain a part of the larger group account..
- Fundraisers are scheduled for the season going forward, and the expectation is that all athletes will participate in at least two fundraiser opportunities during the swim/dive season.
- Scholarships will remain available as needed - please reach out to the swim booster account via email for more details on scholarships for the team trip.
