

From [the Student Handbook](#):

2.6.3 Late Work

- An assignment is considered late if it is not completed by the deadline and there is no reason for an extension.
- There will be no deduction to an Achievement power standard grade if an assignment is completed late. A student's Work Habits grade, however, may be lowered because of late work.
- Work that is not completed on time will be noted immediately with a mark of *No Credit*. Students may still earn credit for a late summative assessment in accordance with the relearning policy.
