KS4 Curriculum Summary

Introduction

In Year 9 there is very little difference between the approach taken at Key Stage 3 and the aims would therefore be:

- to enable the pupils to translate increasingly complex Latin passages into English
- to help pupils develop an understanding of increasingly complex grammar and syntax
- To give pupils the confidence to translate simple sentences from English into Latin
- to enable pupils to acquire new vocabulary and see the links between Latin words and modern European ones.
- to enable pupils to have an understanding of life in Roman Britain and Rome.
- to enable pupils to see how the Roman world has influenced our own.

The key changes come in Years 10 and 11 as the students need to 1) embark upon their study of the prescribed literature which accounts for 50% of the overall exam and 2) be prepared more thoroughly for the GCSE language paper. The above aims still apply but added to those would be:

- To develop the ability of the students to translate sentences from English into Latin in preparation for the grammar questions in the GCSE paper
- To reinforce pupils' grasp of grammar in preparation for the grammar questions in the GCSE paper
- To develop the students' understanding of the Roman world through study of the prescribed literature
- To develop the students' ability to appreciate the style of an author and to recognise and understand the effect of literary devices..

At GCSE Level (OCR) the students sit 3 papers:

Language:	1 ½ hours	100 marks
Prose Literature:	1 hour	50 marks
Verse Literature	1 hour	50 marks
