Cookies Policy

1. Cookies

1.1. The Platform uses cookies to be operational or more efficient in its operation, to improve User's navigation, to provide User with the full potential of the Platform, to ensure the correct display of the content as well as for analytical and statistical purposes.

1.2. Cookies are small text files stored on User's computer when he visits a digital platform, which are used as a means of identifying his computer.

1.3. Cookies apart from absolutely necessary cookies are only installed if the User accepts their installation when he visits this Platform. By accepting cookies when entering this Platform, the User expressly states that he has read and understood the specific terms and conditions regarding the installation, function and purpose of the cookies and that he provides his consent for their use.

1.4. Alternatively, the User may not accept cookies. In this case, only cookies that are technically and functionally necessary for the operation of the Platform will be installed.

1.5. The User can manage the use and installation of cookies at any time through a panel, where he can choose which category of cookies he wants to accept and which ones not (or request to install only the technically necessary cookies).

1.6. In particular, the cookies used by the Platform are the following:

Category	**Cookie**	**Description**	**Duration**	**Transfer of data to third parties**
Strictly Necessary	dianoia_marketplace_cookies_consent	This cookie is set by the GDPR Cookie Consent plugin and is used to store whether or not the user has consented to the use of cookies. It does not store any personal data.	1 year	No
	XSRF-TOKEN	This cookie is set by Laravel to prevent Cross-Site Request Forgery (CSRF) attacks.	2 hours	No
	dianoia_marketplace_session	This cookie is set by Laravel to identify a session instance for the user.	2 hours	No
	lang	This cookie stores the language preferences of the user	2 hours	No

Targeting	_ga	This cookie is installed by Google Analytics. It is used to calculate visitor, session, and campaign data and track site usage for analytics. The data is stored anonymously, and a randomly generated number is assigned to identify unique visitors.	2 years	Yes
	_gid	This cookie is installed by Google Analytics. It stores information about how visitors use a website and helps generate analytics reports, including visitor count, source, and pages visited. The data is collected anonymously.	1 day	Yes
	_gat	This cookie is installed by Google Universal Analytics to throttle request rates and limit data collection on high-traffic sites.	1 minute	Yes
	_ga*	These cookies (_ga_2PXCDWFWVX, _ga_6QY5188GWD, etc.) are set by Google Analytics to distinguish users and collect analytics data.	2 years	Yes
