Privacy Policy

Effective Date

June 2026

Introduction

Thank you for using Textify PDF. Textify PDF is designed to help you create, edit, and export PDF documents directly on your device. We respect your privacy and are committed to being transparent about how information is handled.

Information We Collect

Textify PDF does not require user accounts and does not collect personal information for advertising, marketing, or profiling purposes.

Document Storage

Documents, formatting, and embedded images created within Textify PDF are stored on your device. The App uses Apple's built-in data protection technologies to help keep your data secure.

iCloud Sync

If iCloud is enabled on your device, documents may be synchronized through Apple's CloudKit service to keep your content available across your Apple devices. Information synchronized through iCloud is governed by Apple's privacy practices.

Crash Diagnostics

Textify PDF uses Apple's MetricKit framework to receive diagnostic information provided by Apple. This information may include crash and performance reports that help improve the stability and reliability of the App. No third-party analytics or crash-reporting services are used.

Sharing and Exporting

When you choose to share, print, or export a document, the selected content is sent only to the destination or service you choose through Apple's system sharing features. Textify PDF does not upload, store, or transmit your documents to the developer.

Third-Party Services

The App may use Apple-provided services such as iCloud, AirPrint, and system sharing features. These services are subject to Apple's own terms and privacy policies.

Changes to This Privacy Policy

This Privacy Policy may be updated from time to time. Any updates will be reflected in future versions of the App and on the App Store listing where applicable.
