

## AODP Summit 2021 - Healthtech workshop - Tentative agenda

During this workshop, companies will have the opportunity to learn about huge potentials of using Open data for value creation, either for research, commercialization, healthtech development, or reforms of medical training. It will consist of 2 panels:

**Panel 1:** Best practices sharing - Transforming healthcare sector with Open data

**Panel 2:** Best products/ solutions sharing - Transforming healthcare businesses with data-driven digital technologies

| Time          |            | Content                                                                                                                                                                                                                                                                                                                                                                    |

| 16:45 – 17:15 | Panel 2.2  | 16:45 – 16:55: Company 9<br>16:55 – 17:05: Company 10<br>17:05 – 17:15: Q&A                                                                                                                                                                                                                                                                                                |
| 17:15 – 17:30 | Conclusion | Announcing Survey results and recommendations from the audience - Emphasizing exhibition on COMPTEx and business matching                                                                                                                                                                                                                                                  |

Ask AODP:

- List and bios of companies
- Shortlist presenter companies for the event
- Which partners are interested in providing gifts (in forms of free trials of products/consultation) for the Lucky Draw?
