PART 1

SECTION ONE

Prometheus will:

1. Take control of the Extraterrestrials and their technology.

The Western Powers and their long-term partners in the former USSR, and Europe, have attempted to control the extraterrestrials from Zeta Reticuli and obtain the use of their technology. This effort has been dominated and controlled by an American agency operating under the various names of Operation Majestic, Majestic Twelve, The Majority Agency for Joint Intelligence and most recently, the Senior Interagency Group. The Special Directorate of the KGB and GRU have been their silent Russian partners. Their objective, reached through an agreement negotiated with the extraterrestrials in 1964, has been:

- a. To conceal the presence and identity of the Zeta Reticulin extraterrestrials, provide joint operational facilities for their use, and to study, and employ various elements of the advanced technology extorted from the extraterrestrials.

- b. Their goal has been to achieve advanced weapons technology, propulsion systems and advanced aircraft and spacecraft. This would provide them with world-wide military supremacy.

- c. To institute through the agencies of the United Nations, various Councils and Commissions, and elements of western and international banking alliances, a "One World" government under the control of western civilization.

In the words of Chairman Zemin, "Prometheus and its allies will not tolerate or endure such military, political and economic dominance. We will no longer tolerate the American, European and Russian monopoly and exclusive control, of the extraterrestrials and their technology."

2. Establish our own relations with the Extraterrestrials.

Prometheus, over the past two years, has established friendly contact with the extraterrestrials and our productive negotiations and agreements are now completed. In exchange for their cooperation and technology we have offered "our guests and new allies" far more than that offered by the Americans and their Allies. It has become known to us that the extraterrestrials have felt oppressed by an increasing level of suspicion directed against them and the ever increasing demands, and security measures the Western Nations have imposed upon them. Recently, they have reacted to this pressure by becoming less cooperative,

nervous, and withdrawn.

The Agreement we have reached, has been accepted and endorsed by our Arab Allies.

3. Reveal the Extraterrestrial presence.

Prometheus and our new Allies will, jointly, expose to the World Public the full extent of the Western Nation's prior agreements with our extraterrestrial guests. We will reveal that our guests, until we liberated them, have been held as virtual prisoners at various western government installations and coerced, and intimidated, throughout their captivity, into revealing various aspects of their technology to these governments. We will reveal how the Western Nations and their allies, since 1947, have deliberately withheld and suppressed any knowledge that our guests have been held as virtual captives, and used to promote their military and political ambitions. Our extraterrestrial friends and guests have revealed to us, the identities and names of those in the Western Nations that have used them and forced them to reveal areas of their technology.

We will let the world determine the extent of and judge the hypocrisy behind the West's constant rhetoric regarding violations of "Human Rights" and, in this instance, the "Extraterrestrial's Rights." Once this is exposed, the world will no longer judge the actions of The Peoples Republic and our Arab Allies in such matters. By setting the record straight and exposing the treasonous actions of America, its Allies, and Western Civilization, against their citizens and the people of the world, the world will recognize the ancient wisdom we possess and the benevolent leadership we can provide. History remembers that we are one of the oldest, civilized, learned, and dynastic societies in the world. Our Arab Brothers, share an equally honored past. As this is, again, realized we will be proclaimed the new benefactors of mankind.

We anticipate, and will cultivate, world-wide outrage against the past and present actions of Western Civilization and their efforts to conceal our extraterrestrial friends and the richness of the gifts they would share with us. Totally discredited and humiliated by their past actions, Western Civilization will kneel before us. No longer will they dominate our world.

Section Two of this document will detail how our revelations will be revealed to the world.

4. Provide the financial resources to accomplish our goals.

Minister Zhongli reports that over the past year, diversified valuables in an amount equal to one billion dollars, in western currency, including contributions from our Allies, has gradually been disbursed by the Peoples Central Bank and allocated to Prometheus Agents in strategic countries. The imperialistic western bankers have no knowledge these transactions have occurred. These resources will be used to reward those that assist us, promote public exposure to our revelations, enhance our public image, and provide security for our Agents. Additional

resources are available.

5. Recover the extraterrestrial technology.

As part of our Agreement with our Extraterrestrial friends and guests, they will assist Prometheus in recovering items of their technology extorted from them and held by the Western Nations and their Allies. This technology will be claimed by Prometheus, as it was obtained by illegal coercion from our guests. The West and its Allies have no legitimate claim to this technology. To retrieve our guests technology, we have assembled highly trained military Strike Teams, from both the Army of the Peoples Republic and our Arab Allies. Over the past two years we have infiltrated these Strike Teams into the Western Nations. These teams are positioned and ready. When we are ready, our extraterrestrial guests will help transport these Teams to their specific target locations and assist them in identifying the technology to be recovered. They await our orders. This technology will be returned to our guests and protected by our forces. When it is fully understood, Prometheus and our guests will present it to the world.

We are fortunate that our Agents have identified and located various individuals within the Western Nations' and their Allies intelligence agencies, and military forces, who attach greater importance to monetary reward than to misguided ideals or a devotion to duty. These individuals will be amply rewarded for their assistance when we need them. They will be called when we initiate our technology recovery actions.

6. Discover those who will assist us.

Again, fortunately, Prometheus Agents have located, contacted, cultivated, and offered unprecedented rewards to various individuals within America's "Bird Community" and others with intense metaphysical interests. For their assistance and cooperation, when needed, Prometheus has offered financial security or unlimited access to, and unlimited time to study, the Secret Tibetan Records, entitled "The Mysteries." These Records were recovered by the Army of the Peoples Republic. Our Arab Allies have offered the same rewards and the opportunity to inspect and study ancient texts that predate any known to modern society. The existence of these ancient manuscripts has never been made known to the Western World. Our Agents report that this offer was received with great excitement and interest. Several individuals have accepted our offer.

Meaningful contacts have been made with those individuals and organizations, who have contacts within Western governments, and who seek contact and friendly relations with our Extraterrestrial Guests. Prometheus has offered an invitation to meet our guests, in return for their cooperation and assistance when needed.

The past achievements obtained by the Western Nations and their Allies has been obtained through coercion, subversion, subterfuge, intimidation, threats, and domination. These are the primary methods they have used to control individuals and society.

Prometheus offers fulfillment. We determine the individuals deepest wants and desires, whatever they may be. Then we provide a means of obtaining those desired objectives. Thus, we enlist an individuals enthusiastic cooperation, support and loyalty. This methodology has been very successful in recruiting those who can be useful to us. We will win, and Western Civilization will lose.

PART 2

PROMETHEUS

SECTION TWO

PROMETHEUS WILL:

1. Reveal to the world

How the United States of America, its European Allies, the Russian Government and others have, for the past forty-six years, conspired to conceal:

- a. The presence of our Zeta Reticulin Extraterrestrial Guests.
- b. The reason they came to our world.
- c. The peaceful and benevolent friendship the Extraterrestrials offered our world.
- d. The extortion of the Extraterrestrials technology to obtain political and military supremacy.

This revelation to the World Public will be accomplished by a series of events that Prometheus will initiate and control.

The following events will compel the President of the United States of America to make an "Announcement" to the world.

Our Extraterrestrial Guests have confided to us that they never revealed one of their most important technological achievements to Western Civilization.

They possess a scientific device which allows them to transport

matter, weighing less than two metric tons, and located within a circular area with a twelve meter diameter, from one location, to another location. This phenomena is known as Teleportation. The maximum distance that matter can be moved with this device, is approximately eight thousand kilometers. This device can easily be moved about or carried by any conventional vehicle, ship, submarine or aircraft capable of transporting a cargo of five metric tons. They have agreed to use this device to help us, and themselves. It will be used to accomplish several events.

Event 1. At a date and time yet to be specified, five Prometheus Agents and three of our Extraterrestrial Guests will use their device to teleport into the Oval Office of the White House, in Washington D.C. and confront the President of the United States. We will know when the President is alone in his office. When we appear, all surveillance and security alarms will be disabled. We will assure, a surprised President, that we intend him no harm. He will be informed that we used this extraordinary method of introduction for the specific purpose of meeting and speaking with him privately and to convince him of our authenticity. We will then introduce our delegation.

The purpose of this visit will be to appraise the President of the conspiracy against our Extraterrestrial Guests. He will receive a quick and concise briefing and be informed that the conspiracy situation is out of control. He will then be presented with a complete set of documents that provide all the details of the conspiracy. The documents will list all the agencies, organizations and personnel within the United States and those abroad, who are responsible and will be held accountable. He will be instructed not to inform anyone about our visit or the information given him.

We will then present him with a list of "key" Cabinet and military, and civilian police officials who are not involved in this conspiracy. He will be instructed to personally invite these individuals to a secret meeting, in a secure location - a meeting that he will host. The President will be advised to schedule this meeting two days from this present date. We will inform him that we will know the time and location of this meeting. When all the invited guests are assembled, we will appear and join the meeting.

Again, the President will be advised to keep this initial meeting, with us, totally secret and to carefully study the list of those involved in the conspiracy. Those who cannot be trusted are on that list. We will bring to his attention, that the Vice President is listed as being involved in the conspiracy. He cannot be informed of this, or any future meetings with us. The President will be warned that we can teleport ourselves into his presence whenever we wish, regardless of his location. The instructions we have given him must be followed precisely, or our next visit will not be a friendly one.

We will then end our conversation and be teleported out of the President's Office.

Event 2. When the President has assembled the specified

group, as instructed in Event 1, another delegation of Prometheus representatives and our Extraterrestrial guests will teleport into the meeting. This act will get the immediate attention of the various officials in attendance and establish our credentials. The President will introduce our delegation and describe the events of our previous meeting, and why this meeting was arranged.

Our spokesman will then reveal, to all those assembled, the details of the conspiracy. Copies of the list of the accused, will be distributed to all. When the magnitude and seriousness of the situation is clear to all, we will present a plan for the arrest and detention of all those who have participated in the conspiracy and how it will be conducted. The President, and those assembled, will then be provided with a list of non-involved and trusted government, security, and the military and civilian police officials in the foreign countries involved. Details of the arrest and detention procedures to be conducted in those countries will be presented. The President will then appoint one of the officials present, to supervise this operation and report to him personally when all the arrangements are completed.

Our spokesman will then advise the President to select one of the Cabinet Officials present to be his personal aide. This aide will serve for the duration of this operation. The President will then be instructed to secretly contact the officials of the foreign governments involved, by telephone, and explain what is happening, and what actions must be taken. His personal aide must be present to witness these conversations and to substantiate the President's statements. To insure that these officials take the President's explanation and statements seriously, we will arrange to teleport into their presence as he is speaking with them. Before the phone conversation is ended, the President will be assured of their full cooperation and agreement, to carry out his suggestions, in secret.

The President will then order the following actions:

a. Federal Arrest and Detention Warrants are to prepared, in secret, for his signature. The Warrants will be issued for all those accused of being participants in the conspiracy.

b. Special teams, composed of both military and civilian police are to be organized, assembled, and positioned, throughout the country so that all the Warrants can be executed simultaneously.

c. All the military and law enforcement officials present are to assist in the organization and execution of this operation.

d. Federal Emergency Management Agency (FEMA) facilities will be used as detention centers for those arrested. Special Military Police Units will guard these facilities.

e. The Arrest and Detention Operation must be organized and ready to respond to the President's Order, in one month.

f. A FEMA Command Center will be assigned, immediately, as the Headquarters for this operation.

The President will, again, order that the matters presented in this meeting are to be kept secret.

The meeting will then be adjourned.

Event 3.

The culminating event of this series will be an announcement by the President of the United States of America, in which he reveals this conspiracy and the guilty actions of the United States, its European Allies, the Russians, and various members of the western banking community.

With no other option available, the President of the United States will be forced to make this announcement, in a world-wide televised appearance, before the General Assembly of the United Nations. Representatives of our Extraterrestrial Guests will make their first public appearance at this time, to confirm the President's statements and tell their own story.

They will explain to the World Public how their initial contacts with the United States and their offers of "Good Will and Friendship" were accepted. Then, through the use of deceitful tactics, how they were persuaded to enter into Agreements with the United States. They will, also, describe how the gifts they brought were confiscated by the Government of the United States, and by later agreement between the United States, its European Allies, the Russians, and various western banking groups, these gifts were withheld from the world community. Their story will reveal how they have been held, against their will, and as virtual captives, at various government installations. The shocking details of how they were forced, by coercion, to reveal various parts of their technology will be revealed. Technology, they later learned, was being used to promote and achieve political and military dominance over the World Public by the western nations and their allies.

The most shocking and horrifying revelation of all, will be how our Extraterrestrial Guests were forced, by deadly threats, to participate in the abduction of citizens, world-wide. And, how these abductees were used as experimental subjects in a secret genetic engineering, cloning, and mind control program, supervised and controlled, by the Senior Interagency Group of the United States Government, its European Allies, the Russian Government, and others, and by the various military and scientific personnel under their direction and control.

Our Extraterrestrial Guests will describe how, with military personnel hidden out of sight and weapons aimed at them, they were forced to use their spacecraft to abduct these citizens, and to subject them to medical examinations and certain procedures aboard their craft, or transport these abductees to secret government installations for more elaborate procedures. There, at gun point, they were forced to assist in more ghastly experiments.

It will be revealed that our Extraterrestrial Guests were always made to appear, to these abductees, as the originators of these actions. To reinforce the impression that our Extraterrestrial Guests were responsible for these actions, abductees have been subjected, by the Western Governments, to various forms of mental programming and conditioning. With the use of this "safeguard," if any part of this program was ever revealed or a mistake occurred, our Extraterrestrial Guests would be the ones accused of these atrocities. No government would be held accountable. This brutal form of coercion, it will be shown, was another method used to manipulate and control our Extraterrestrial Guests and assure their cooperation.

At the conclusion of the President's announcement and the testimony of our Extraterrestrial Guests, the following will occur.

Representatives of Prometheus, will address the General Assembly of the United Nations, and the world-wide television audience. We will announce that: In an agreement reached with the President of the United States, and the heads of government of its European Allies and the Russian Government that, as this announcement was presented, the following is occurring:

Thousands of Military and Civilian Police teams, acting jointly, and simultaneously, in the United States, the countries of its European Allies, and in the Russian Republics, are arresting and detaining key government officials and every individual named, in the warrants supplied them. They will also seize, as evidence, the records of these individuals and the records of the government agencies they control. To preserve the continuity of government functions, in the countries involved, key officials under arrest are being replaced by their immediate subordinates.

Those attempting to flee or evade arrest will have their photographs and descriptions broadcast throughout the world. They will be hunted down ruthlessly until they are apprehended. Generous rewards will be offered for information leading to their capture and arrest. They will not find sanctuary in any country.

Prometheus will then demand that the United Nations create a Trial Court composed of jurists and religious leaders from nations and countries that have no alliance with Western Civilization. Specifically, but not limited to, the following:

The Peoples Republic of China
North Korea
The Nations of Iran, Iraq, Lebanon, Palestine, and Libya
Asian Nations
Islamic Nations
Third World Nations

As "Accused Parties," because of their participation in the monstrous conspiracy revealed, the United States of America, its European Allies and Russia, and the American and European Banking Community, cannot be allowed to occupy any position in the

composition of the Trial Court.

It shall be the duty and responsibility of the Trial Court to try every accused entity, whether it be: governmental, industrial, business, scientific, educational, financial, religious, or an individual, of any participation, past or present, in this conspiracy. The trial proceedings will be televised for world-wide viewing. The "Accused" shall be tried for heinous crimes against humanity and our Extraterrestrial Guests.

As a result of these events, the political, military and financial dominance of Western Civilization will no longer be a threat to the World Public. To prevent Western Civilization from using the technology, they have extorted from our Extraterrestrial Guests, against the world, in an attempt to preserve their former dominance, Prometheus has taken action. As we have been speaking, our military units have been recovering our Guest's technology from the installations of the Western Nations. Prometheus will return this illegally obtained technology to our Guests and protect it, until it can be shared with the world.

Prometheus and our Extraterrestrial Guests will initiate a new Millennia of ordered growth and expansion. A new vision and social order will shape the destiny of humanity.
