

Hello, my name is Aymane and i am here to speak about my actual state, i started my career as a seaman with 6 months internship onboard an LPG vessel with a salary of 200\$/monthly, i came back home last month 02/09 and i joined the real world for the first time the 5th of September since i did not have the money nor the ressources to do it before and the wifi on a ship only works for whatsapp, thus i joined the ecom niche first since i did some selling jobs before but my first try was nothing but a failure and i could not afford to invest more than i have already invested and decided to stop the ecom for now. I felt at loss after that and i did not what to do so i decided to switch to affiliate marketing, i followed the steps and everything but i reached a point where i need to advertise my content and i cannot do it because i have few money left and i help with spending at home since i am from a poor family and i would not consider my Father the man of the house because for me he is a loser who taught me nothing about life but my Mother is a warrior, i managed to pay for my second month in the real world with a debt of 800\$ on my shoulder but i feel at loss so i decided to at least learn something new before i quit the real world and go back to sea for 4 months to finish my internship. After i finish my internship i will become an engineer with a salary of 3500\$ and i will be able to invest in the ecom or start learning trading, i feel lost with no mentor or mentee but i keep my head up and i never miss a day of gym it is been 3 months now that i am working out and i will never stop.

I want to become rich to the point where i become free and i can take care of the people i love and save my whole bloodline from eternal slavery, i think i am the last hope of this family and i will make sure to deliver and invest more of my time once i have the money and the moment i will have 100 000\$ in my bank account i will quit my seaman job and i will invest more time into grinding and hustling till it becomes millions of dollars and i will make sure i join the war room once i quit my seaman job.

I am also from a third world country called MOROCCO so it is very hard to do a lot of stuff even have an international bank account is quite hard.

DO YOU THINK I MADE THE RIGHT DECISION AS 23 YEARS OLD MAN WHO ONLY HAVE 3 WEEKS LEFT NOW UNTIL HE GOES TO SEA AGAIN?
