Topic: Citing collections data
Date: 2020-08-27
Time: 11am Eastern

In Attendance

Erica Krimmel (iDigBio)	Christina Byrd (MCZ)	Alyson Wilkins (NHMU)
Roger Burkhalter (Sam Noble Museum, Invert Paleo)	Carrie Eaton, UW Geology Museum	Evan Seed (CMN)
Holly Little (NMNH)	Jessica Utrup (YPM)	Margaret Landis (OMNH Paleobotany & Micropaleontology)
Amanda Millhouse (NMNH)	Kesler Randall (SDNHM)	Talia Karim (CU Boulder)
Nicole Volden (NMMNHS)	Eva Biedron (MCZ)	Austin Hendy (NHMLA)
Lindsay Walker (NHMLA)	Carrie Levitt-Bussian (NHMU)	Juliet Hook (NHMLA)
Cyrus Green (MCZ)	Jessica Cundiff (MCZ)	Vicky Wang (PRI)
Adam Kowalczyk (UMich)

Action Items

Notes

For your calendars, the Earth Science and Paleobiology Interest Group will be meeting at TDWG 2020 on September 22, 2020 at 17:00 UTC (see your local time here).

Citation (in this conversation) = Documented use of museum specimens in the literature
Various versions of GBIF data that can be cited
- Full dataset at time of access for research
- Dataset of specific occurrences included in research
- Dataset on IPT
- Individuals specimens

About 7 months for paper publication to when the citation shows up in GBIF dataset citations

Now that we are sharing data online people can publish on our specimens without ever processing a loan for our specimens, so how do you make sure you know that the specimens are being used in research, published on, and being cited properly?

What are the implications for how citations should be tracked in specimen records when they are included in a dataset that is cited in a paper (through something like GBIF)? Where is the balance in the detail we should be recording internally?

LACMIP GitHub page
- Handbook for internal use
- Has also been useful for transparency in practices with researchers
- "Citing Collections Data" page

MCZ Copyright request form:

https://hwpi.harvard.edu/files/mcz/files/mcz_copyright_request_form.pdf

MCZ Rights pamphlet:

https://hwpi.harvard.edu/files/mcz/files/mchu_1-78_policies_on_photographic_and_reproduction_rights.pdf

How are GUIDs included in citation of specimens?
- Seems to be an issue that journals need to solve somewhat about where this data is/how it is packaged

How to cite a collection as a whole?
- Is it appropriate to use the dataset citation?

Chat Copy

08:04:33   From Talia S. Karim :

https://docs.google.com/document/d/1KyyzgYSBThlfEOWO4bHOGlakLTdG6YJQzISNMwvOMU4/edit?usp=sharing

08:04:37   From Talia S. Karim : Notes for today

08:12:57   From Jessica Utrup : Survey Cat makes me so happy!

08:15:03   From Holly Little : I can't speak for regular specimen data use and loans, but for 3D data we have an agreement we have researchers sign that outlines what information should be included in any publication or use of that data. As you said though, once we have put those datasets out in the world we don't have the ability to ensure those agreements are completed.

08:17:01   From Jessica Utrup : Honestly, I hadn't even considered tracking broad dataset usage. We are really just tracking specimen occurrence data in papers and appendices. I'd love to learn more about how others are tracking broader dataset usage.

08:19:02   From Amanda Millhouse : To followup on Holly regarding loans or specimen data from visiting researchers, we rely on the researchers to get back to us 99.8% of the time with any publications or data they use. I've liked how others include it in their loan policies though and will also add it to our visitor guidelines. Great advice from others on Slack!!

08:21:56   From Carrie Eaton : [ducking out briefly to log kiddo into math class]

08:24:24   From Erica Krimmel :

https://docs.google.com/document/d/1KyyzgYSBThlfEOWO4bHOGlakLTdG6YJQzISNMwvOMU4/edit?usp=sharing^agenda

08:29:02   From Christina J Byrd : Copyright request form:

(https://hwpi.harvard.edu/files/mcz/files/mcz_copyright_request_form.pdf

08:29:18   From Christina J Byrd : The pamphlet:
https://hwpi.harvard.edu/files/mcz/files/mchu_1-78_policies_on_photographic_and_reproduction_rights.pdf
08:30:33   From Amanda Millhouse : I think the culture in VP tends to be more secretive and fears of other people stealing their data before they are totally done working on it
08:31:15   From Cyrus Green : ^^^
08:31:15   From Amanda Millhouse : Less willing to share in VP :(boo
08:31:41   From Holly Little : Also fun to go search MorphoSource to see which of your specimens appear with datasets there
08:32:03   From Holly Little : Same on the open access issues!
08:32:24   From Lindsay Walker : I hadn't even thought to check MorphoSource yet
08:32:26   From Amanda Millhouse : Haha yes! Soooo many things on MorphoSource that we didn't know existed
08:35:51   From Holly Little : https://en.wikipedia.org/wiki/Threshold_of_originality
08:41:39   From Carrie Levitt-Bussian : Yeah, the internet says that the copyright symposium has been canceled
08:41:52   From Lindsay Walker : Thanks for checking!
08:43:17   From Talia S. Karim : We haven't started that yet
08:45:54   From Holly Little : GUIDs!
08:48:22   From Jessica Utrup : Well said, Talia!
08:49:00   From Holly Little : I do think this is something GBIF is actively working on… but who knows what the timeline and future functionality actually is
08:49:12   From Holly Little : The citation part
08:49:23   From Jessica Utrup : Talia, there's something wrong with your taxonomy tree...
08:49:51   From Talia S. Karim : No, its about how our taxonomy is mapping when the dataset is integrated. I think.
08:54:15   From Holly Little : TDWG Collections Description Interest Group
08:55:13   From Holly Little : They are building a collections description standard
08:55:31   From Talia S. Karim : +1 Holly
08:59:41   From Evan Seed (CMN) : Thanks - super informative discussion!
08:59:56   From Carrie Eaton : Thank you everyone!
09:00:05   From Austin Hendy : Thanks Lindsay and group! Very informative
09:01:04   From Christina J Byrd : Thank you Lindsay!
09:01:15   From Christina J Byrd : This was a great discussion.
09:01:23   From Holly Little : and TDWG IG/TG meeting September 21-25
09:02:29   From Holly Little : October 18th week for TDWG week 2
09:02:41   From Holly Little : I think..
09:03:04   From Erica Krimmel : yay cats!!!
09:05:20   From Carrie Eaton : Word, Erica! +1
