

Circles Everywhere TEXT

Created by Amy Shepherd, M.Ed.

This is a circle.

Circles are round.

The number Zero is a circle.

Circles are shapes that are hiding in plain sight all around us! Let's find some together!

Find the circle.

Find the circle

Circles here, circles there. Circles, circles everywhere!

Look...

I see something that is shaped a circle. It's round and has a dimple on top with a short stem.

What is it? It's an apple.

Circles here, circles there. Circles, circles everywhere!

Look...

I see something that is shaped like a circle. It's round, a brownish orange color and has indented black curvy lines.

What is it? It's a basketball.

Circles here, circles there. Circles, circles everywhere!

Look...

I see something that is shaped like a circle. It is round and has a small round hole in the middle.

What is it? It's a donut.

Circles here, circles there. Circles, circles everywhere!

Look...

I see something that is shaped like a circle. It's round and has two holes in it.

What is it? It's a button.
