Welcome

LM&IAS Resources Landing Page

Welcome!

You are on the landing page for resources from the Language Models and Intelligent Agentic Systems course.

This doc is located inside the 🗀 resources folder, which contains resources to accompany the course.

Lennie and Jason will use this doc for errata, and other comments on the course.
(This is easier for us to edit than the website hosted by Meridian).

We will update this as the course progresses. 😊

Please comment and suggest improvements if anything is unclear!
