

# Roblox

*Brody R.*

Do you enjoy creating things online? Roblox is an online site [www.roblox.com](http://www.roblox.com) where you can create games and play games created by other people.

Roblox is a video game for the computer, video system like xbox, Ipad, and phone where you can create your own game and play games created by others. If you are going to build a game, you need to use a computer.

If you are a gaming person I recommend that you try out roblox. It has superhero games, mystery, adventures, roleplaying and so many fun games. Roblox has more than 40 million games. I have

a feeling that you are gonna like games where creators have a blue check mark next to them.

Roblox is a video game where you can play and create lots of games. I recommend you try roblox.
