

September 23, 2019

Good afternoon,

The team already has the evidence on your site under review and there were some concerns that the 6 parts of the ILP were each one of the old FACT program. In the review, it appeared that everyone does the same 17 steps. There were also still references to the old 6A and 6B.

This is the link where the team saw all of the old FACT documents.

<https://sites.google.com/musd.org/ntip/the-unit/other-supporting-documents>

Did you want to provide any additional information related to this evidence that I can share with the team lead and team? Just a reminder that you will also need to post your addendums.

Response to CTC Feedback

September 23, 2019

Hi Roxann,

Thank you for your email. We have a new staff who handles our website design. We are currently working with our new staff of making changes and updates to our website information. The old information that you saw will be updated with our new ILP form which does not follow the 6 forms of the FACT program. We should be done with these new changes by the end of this week.

The addendum will be added as well. Thank you for the feedback.
