

## # Privacy Policy for Mochi

**\*\*Last updated:\*\*** September 18, 2026

Mochi ("the App") is developed by Evrim ("we," "us," "our"). This Privacy Policy explains what information the App accesses, how it is used, and your choices.

### ## 1. Information We Access

**\*\*Screen Time / App Usage Data.\*\*** With your permission (granted through Apple's Screen Time / Family Controls authorization), Mochi accesses on-device data about your app usage — such as which apps you use, for how long, and app-blocking activity you configure — in order to let you set focus rules (blocked hours, time limits, open limits) and enforce them.

This data is processed **\*\*on your device\*\*** using Apple's Screen Time APIs (DeviceActivity, FamilyControls, ManagedSettings). We do not have visibility into which specific apps you have selected to block, and Apple's frameworks are designed so that this information is not exposed to us as the developer.

**\*\*Purchase Information.\*\*** If you subscribe or make an in-app purchase, the transaction is handled by Apple through the App Store. We receive confirmation of purchase/subscription status (e.g., active, expired) but do not receive your payment card details — those are handled entirely by Apple.

**\*\*Information You Provide Directly.\*\*** If you contact us for support, we receive whatever information you choose to share (e.g., your email address and the content of your message).

### ## 2. Information We Do NOT Collect

We do not collect your name, contact list, precise location, photos, or browsing history. We do not sell your personal information.

### ## 3. How We Use Information

- To provide and operate the App's core functionality (blocking apps, tracking limits, showing your streak/stats)
- To process and validate purchases/subscriptions through Apple's App Store
- To respond to support requests
- To diagnose bugs and improve the App

### ## 4. Data Storage & Sharing

App usage and rule data used by Mochi is stored locally on your device. We do not operate our

own servers that store your Screen Time data. Purchase/subscription status is managed by Apple.

We do not share personal information with third parties for advertising or marketing purposes.

## ## 5. Children's Privacy

Mochi is not directed at children under 13, and we do not knowingly collect personal information from children under 13. If you believe a child has provided us information, contact us and we will delete it.

## ## 6. Your Rights

Depending on your location (e.g., under GDPR or CCPA), you may have rights to access, correct, or delete information we hold about you. Since Mochi's core data stays on your device, most of this data is entirely in your control via your device's Settings app (Screen Time settings) or by deleting the App. For anything else, contact us using the details below.

## ## 7. Data Retention

Support communications are retained only as long as needed to resolve your request. On-device data is retained until you delete the App or reset the relevant settings.

## ## 8. Changes to This Policy

We may update this Privacy Policy from time to time. Changes will be reflected by the "Last updated" date above.

## ## 9. Contact Us
