

Dear Housing Matters Board of Directors,

I read that the public day-services hub on Coral Street is set to close at the end of March 2026, including showers, bathrooms, and USPS mailboxes. Maintaining vital public day services in our community without interruption is important to me because _____.

I'm concerned that there is no coordinated transition plan, and Santa Cruz cannot afford to lose these invaluable resources. Here are my questions for you, the board:

- Where may I find information about your transition-planning process and how you created the timeline for the removal of day services from Coral Street?
- Can I count on you to make sure people living in the worst conditions in Santa Cruz won't lose access to life-saving day services at the end of March 2026?
- How can I help?

Sincerely,

Your name and the city where you live
